Conveniently located just off the kitchen, the formal dining room comes complete with hardwood flooring, chandelier lighting, chair rail, wainscoting and crown molding and is ideal for hosting dinner parties. Dark hardwood flooring continues from the dining room to the classical living room which is enhanced by tall windows which afford views of the gardens and allow natural sunlight to come streaming through. Crown molding and fireplace with mantle and gorgeous surround enhance the elegance and distinct attention to detail of this room.

Unwind or entertain guests in the open, yet cozy family room. Beautifully built with hardwood flooring and large fireplace with unique copper top and wood surround, this room provides the feeling of rustic comfort. An attached computer area is an added bonus while the dramatic French doors that grant access to the side porch and hot tub are the rooms' focal point. The walk-through laundry room is designed for convenience, granting access from the family room or kitchen. Pocket doors to this room easily close off the view of the washer and dryer and the crisp white cabinetry is ideal for storage. A full bath is just off this room and continues with the detailed style of this home. Three guest bedrooms, one of which offers its own full bathroom, are located on the first floor ensuring everyone has their own personal space. Features of these rooms include hardwood flooring, neutral paint and plenty of closet space.

Upstairs you'll find your beautifully updated, private master bedroom suite. This spacious room will feel like your own private get-away as it is the only bedroom housed on this floor.
